The girl on the left has long brown hair in a high ponytail with a large bow and is wearing a dark dress with a white collar. ADEPTUS
ASTARTES

ANGELS OF DEATH

-Angel futa milk is extremely rare and precious. In contrast, female orc foot sweat is plentiful. In the orcish milking factories, orc girls convert their own foot sweat into angelic futa milk.

-Foot sweat is constantly pumped into the angels mouth. This is the only means of hydration and ensures plentiful milk production.

-All futa angels have a huge fetish for smelly feet, so orc girls like to keep them nice and sweaty - at least seven years unwashed with everyday marathons in heavy boots, sockless, of course.

-No one can resist footjobs by huge, soft orc-girl feet, especially not foot fetishistic futa angels.

-Flying, mechanical feathers tease and tickle the angel, especially on her cock and the soles of her feet.

-The feathers also tickle the feet of the orc girls. Besides the orc girls liking it, it makes their feet smell even more, due to increased toe wiggling.

-The immortal angels don't need food or sleep. They are eternally milked in the orc factories.

PLEASE NOT

Anything but
Feet

Oh, yes! It's tickling and numbing
feet run you, after anal.

-In the precum factories, halfings
extract precious precum from futa
angels.

-The angels are completely immobilised.
Only their feet, breasts and cock are
left bare.

-Wrapping the base of the shaft makes
sure the angels will never, ever cum.

-A special bio-mechanical licker licks
the head and collects the precum. The
licking and sucking of the licker is
immensely pleasurable.

-Feathering the head, shaft, balls, and
breasts edge the angel to the absolute
brink of orgasm.

-Futa angel feet are quite sensitive.
Licking then increases the production
of precum. The feet are licked at
all times.

-Several halfling feet are used around
the futa angel head. They are cleaned
every day and made to run one hour
without socks, before they are used.
New nailpolish is applied as well.
The smell of fresh foot-sweat
and nail polish drive the
futa angel wild with
lust.

-The immortal
angels don't
need sleep or
food. They
are milked
for their
precum at all
times.

-They don't need
air either, but
the tickling makes
them laugh and,
consequently,
inhale the halfling
foot smell.

-There are millions of angels in a factory,
and there are innumerable factories across
the multiverse.

It's been decided!
The punishment
game this
time is...
"The Ultimate

Hell!"

I will
willingly
accept the
punishment
and see it
through to
the end!

Wait,
they got
this...
But a time
to a time.

The handsome
idol team lost!
A penalty game
has been
decided!
This time,
the victim is
Ai Toge!

What?

Wait!
I'll do
anything!
I'll do anything!
I swear!
Just please
stop tickling
the soles of
my feet!!
Stop tickling
meeeee!!

Please!
Wait there...
Not my

Stop it
already—now!
Nah nah what?

I-stop it already!
Stop it!
I surrender!
I surrender, okay?
Give up!
Yahahaha!!

Y-yikes!
Haha
haha!?
I-that
tickles!
It tickles!

What!
Despite all that
spiritual enthusiasm,
she's already admitted
defeat and surrendered!
It turns out, Ai-san is
incredibly ticklish.
Her soles are
a major weak spot!

Just look
at this:
what a pathetic,
abandoned soul!
If it had to
be before they
were so used
and miserable again!
This is an
unbearable hell!

This time, I ended up in a cartoon world and caught a kid stealing my spaceship parts to "study" them. The little thief was incredibly rude, claiming someone like me must have stolen such an amazing machine. Well, I had actually stolen it from Bulma, but that's beside the point. The brat needed a lesson.

I dragged him to his mom and threatened to turn him in. After hours of negotiating, she begged me not to call the cops and offered me cake instead. I didn't plan on forgiving him, but when I saw the size of that cake, I just couldn't resist.

What can I say? I have a weak spot for cakes, especially from housewives.

I started pounding that ass without mercy. The harder I thrust, the more she moaned with pleasure.

It seemed like she hadn't been fucked like that in a long time, because she kept begging for more. I don't know who her husband is, but he obviously wasn't doing his job right. Lucky for her, here I was to save the day — the hero of every unsatisfied housewife.

I'm pretty sure I was the first guy to ever fuck that massive ass, which was a surprise, considering it's the first thing that comes to mind when you look at her.

Maybe she was too shy or too reserved for anal sex? Perhaps, but with me, she wasn't shy at all; quite the opposite, she made a point of pushing back harder against every thrust I gave her.

A woman with dark hair, wearing a crown and ornate jewelry, sits on the left. A man with a beard and a blue robe leans over the table on the right, resting his chin on his hand. They are playing a chess game on a wooden board with various fantasy-themed pieces, including a knight and a dragon. A bright blue lightning bolt strikes a piece on the board. She is being electrocuted by bright blue lightning bolts, which are also striking her feet. She has a pained but laughing expression, with her eyes squeezed shut and her mouth open. On the right, a woman with long, dark, curly hair stands watching her. She is wearing a black, off-the-shoulder, long-sleeved dress. She holds a small, dark dagger in her right hand, pointing it towards the blonde woman. She has a smug, confident expression. Two speech bubbles are present: one from the black woman and one from the blonde woman. The background is dark and textured with stone patterns. How can I rename multiple images at once with different names?

Mc_Allister

Level 1 · 14 points

Oct 21, 2024 3:14 AM in response to Feuerstein1

Automator is a built-in automation tool for macOS. It is very convenient for batch processing files, especially when you want to **rename multiple images at once**. The steps are a little complicated, but you can get it done with one click after setting it up.

1. Open Automator and create a new "Workflow".
2. Find "Get Specified Finder Items" in the search bar on the left, and drag it to the workspace on the right.
3. Then search for "Rename Finder Items" and select "Add" to the workflow. You can choose the specific renaming method here, such as replacing text, adding prefixes or suffixes, etc.
4. After selecting, save this workflow and give it a name, such as "Batch Rename".

In the future, you only need to select the pictures you want to rename and run this workflow. It is especially suitable for processing many pictures at one time, without having to change the names one by one, and the efficiency is super high!

Did you know?

Shuckle can theoretically unleash one of the strongest single attacks in the entire Pokémon series.

Shuckle has the highest Defense stat in the game (230). If it uses Power Trick, it swaps its Attack and Defense stats, suddenly giving it the highest Attack stat of any Pokémon in existence.

Combine that with Shell Smash, Rollout, and perfect setup... and Shuckle can mathematically hit harder than almost anything else in the game.

The ultimate glass-cannon!

Today, we are beyond proud to unveil "Becoming After", the new chapter in Noveria's journey.

This album is the result of years of growth, challenges, sacrifices, and relentless dedication. Every note, every lyric, every melody, and every moment poured into these songs represents a transformation, not only as musicians, but as human beings.

Becoming After is about what remains after the storm. Who we become after the fall. The strength we discover after facing the darkness.

It is a path that begins in the shadows and rises toward the light. A story of resilience, rebirth, and the courage to keep moving forward when everything around us seems to be falling apart.

This is our most ambitious, emotional, and powerful work to date, and we cannot wait for you to experience it.

A huge thank you to Scarlet Records and everyone who has believed in us, supported us, and walked this path alongside us.

The journey continues!

Welcome to BECOMING AFTER. 🌹

Legendary Artifact Creature: Robot Villain

Superadaptoid's power is equal to the number of legendary creatures you control.

Whenever Superadaptoid enters the battlefield or attacks, target one other creature. If that creature has haste and Superadaptoid doesn't, put a haste counter on Superadaptoid. Do the same for flying, first strike, double strike, death touch, indestructible, lifelink, menace, reach, trample, and vigilance.

Germans are eating Waffle House.

@SharpFootball

there's a German guy named Freddy here
for the World Cup

as far as I can tell his meals on Monday
were:

Waffle House at 1 AM

Wendy's for lunch

Chili's for dinner & NBA Finals Game 3

little does he know he just earned his
citizenship, that was the secret meal
combo to unlock it

There isn't a day Im not writing bars and working on my craft. I'm always in the hyperbolic rhyme chamber for this rap shit. Ppl be amazed I can write verses in 10 mins that's because I practice harder than anyone in my lane. I'm no prodigy I just practice to where the process becomes light work and 2nd nature. Anybody can do it you just gotta stop bsn. Dont say you want to be good but ya actions show you dgaf. You can't control if ppl latch onto ya music. But you can control how good you are at making it.

Here we are with this Tuesday post, and this time it's actually a non-Warhammer piece.

This is another commission I completed for

Horus: Konrad, i need you to go to the furthest reaches of the galaxy and distract the Dark Angels for so long that they won't reach Terra in time.

Konrad: And how should i do that, brother?

Horus: I want you to play the longest game of hide and seek you've ever played with the Lion.

Konrad: Done.

Imagine a structure so vast that light itself would take 10 BILLION years to cross it. Astronomers have found one of the largest known structures in the observable universe: the Hercules-Corona Borealis Great Wall. They discovered this cosmic behemoth by mapping powerful gamma-ray bursts — the brightest explosions in the cosmos — using them as cosmic beacons to reveal where matter is massively clustered across incomprehensible distances. But here's the part that breaks cosmology: According to the standard model, the universe should look roughly the same everywhere on the largest scales. Yet this colossal wall stretches far bigger than our theories comfortably allow — challenging everything we thought we knew about how structure forms in the cosmos. Is our understanding of the universe incomplete? Are even larger structures still hiding out there? The Hercules-Corona Borealis Great Wall is a humbling reminder: no matter how advanced our science gets, the universe still loves to surprise us. Every discovery shows just how small we are in the grand scheme... and how breathtakingly extraordinary it all is. If this blew your mind, share it with a fellow space lover!

Devastating Wounds is a powerful universal weapon special rule in Warhammer 40k.

Whenever an attack with this rule scores a Critical Wound (an unmodified wound roll of a 6, or an altered critical value via abilities like Ant), the attack completely ignores all Armor and Invulnerable saving throws. [New Recruit +1](#)

How Devastating Wounds Work

When you roll a '6' to wound with a Devastating Wound weapon, the core mechanics apply:

- **No Saves Allowed:** The defending model cannot make a normal Armor Save or an Invulnerable Save. They bypass the save sequence completely. [New Recruit +1](#)
- **Feel No Pain (FNP):** The target can still make Feel No Pain rolls, as FNP is not considered a saving throw. [Reddit - r/Warham... +1](#)
- **Damage Spillage:** Unlike traditional Mortal Wounds, damage from Devastating Wounds does not "spill over" onto other models in a unit. If you inflict a 6-Damage Devastating Wound on a squad of 1-wound infantry, the entire attack sequence is wasted on a single dead model, rather than wiping out six models. [Reddit - r/Warham... +1](#)
- **Resolution Timing:** These attacks are allocated to models only after all other non-Devastating Wound attacks from the same attacking unit have been resolved. [New Recruit +1](#)

@FabvLMusic is really hitting on all cylinders this year with various music styles.

@Keetheweeb @Daddyphatsnaps
absolutely delivered!!

I get Vengeance vibes with Fly, the deep introspective lyrics, instrumental that fit the character in a movie soundtrack.

Vengeance is an all time DPS favorite song, so this is definitely a nice change of pace 🎵❤️

 A Cosmic Monster Spotted by Webb

The James Webb Telescope has captured an image of the dusty galaxy AzTECC71, which formed just 900 million years after the Big Bang. This giant "bakes" hundreds of new stars every year—a feat that has astonished scientists.

The discovery of AzTECC71 upends our understanding of the early Universe. Massive "star nurseries," previously thought to be rare, may be three to four times more common than once believed.
